

Eliminizer Filter Dryer

Contaminants Removed:
Water & Dirt

↑3P-060-S04-F

- Remove water & dirt in a gas system
- Removes water & dirt to 1 micron
- Utilizes stainless steel fiber elements & cotton final filters
- May be installed in most washdown applications
- Plastic automatic drain or nickel-plated brass manual drain

Eliminizer Combo Filter Dryer/Oil Extractor

Contaminants Removed:
Water, Dirt & Oil

←3P-060-S04-DC

- Remove water & dirt in a gas system
- Removes water, dirt & oil to 0.01 micron
- Stage 1 utilizes stainless steel fiber elements & cotton final filters
- Stage 2 utilizes borosilicate fiber elements & polyurethane drain layers
- May be installed in most washdown applications
- Plastic automatic drain or nickel-plated brass manual drain

Eliminex Separator/Filter

Contaminants Removed:
Water & Dirt

←1P-060-S04-F

- Remove water & dirt in a gas system
- Removes water & dirt to 3 microns
- Utilizes stainless steel fiber elements
- May be installed in washdown applications
- Plastic automatic drain or nickel-plated brass manual drain

Eliminex Combo Separator/Oil Extractor

Contaminants Removed:
Water, Dirt & Oil

←1P-060-S04-DC

- Remove water & dirt in a gas system
- Removes water, dirt & oil to 0.01 micron
- Stage 1 utilizes stainless steel fiber elements
- Stage 2 utilizes borosilicate fiber elements & polyurethane drain layers
- May be installed in most washdown applications
- Plastic automatic drain or nickel-plated brass manual drain

Application:

Easily remove water, dirt and oil contamination from applications without the worry of corrosion
